

An Educational Toolkit for Vehicle Crimes

For Law Enforcement Agencies

Mission Statement

The mission of this IACP working group is to create a best practices guideline for law enforcement agencies that do not have a dedicated vehicle crimes investigator. The material herein will provide them with the resources necessary to better investigate vehicle related crime. We have created a concise and comprehensive “Educational Toolkit for Vehicle Crimes Investigation”.

It All Started With A Vehicle...

The common theme in each of these infamous crimes is that each of these investigations are tied to vehicles, vehicle theft or vehicle identification. With the resources and data providers compiled in this presentation you will be better prepared to conduct investigations involving vehicles associated with crime.

Pictured 1st column: John Allen Muhammad - DC Sniper, David Berkowitz- Son of Sam Killer, Warren Jeffs – Mormon Fundamentalist Cult Leader & Sexual Predator. 2nd column: Ted Bundy – Serial Killer, Timothy McVeigh – Domestic Terrorist, Ramzi Yousef – Terrorist WTC Bombing 1991.

The screenshot shows the NMVTIS Law Enforcement Access Tool interface. At the top, there is a navigation menu with links for Federated VIN Search, State Title Search, Submit Bulk VIN Search, JSI Reporting Entities, Submit NMVTIS Violation Report, Jurisdiction Contact List, Share a NMVTIS Success Story, Resources and Training, and FAQ. The main content area is titled "NMVTIS Federated VIN Search" and includes a search form with a text input field labeled "ENTER SINGLE VIN" and a "SEARCH" button. Below the input field, there is a link to "Add another VIN (5 maximum)" and a link to "Submit Bulk VIN Search" for searches of more than 5 VINs. A list of databases is displayed with checkboxes, including "Select all databases", "NMVTIS Central File", "Junk, Salvage, and Insurers Database", "National Vehicle Services (NVS)", "OCRA-Mexico Stolen Vehicle Database", "NICB Flood Damage Database", "NICB Known Counterfeit Database", "NICB Known Clones Database", "CARS (Car Allowance Rebate System) USDOT Dealer Rebate Program - 2009", "VIN Analyzer", "Customs and Border Protection Known Exported Vehicles (pending)", "NCIC Auto Theft File (pending)", and "INTERPOL Auto Theft File (pending)". The footer contains links for NMVTIS History, Privacy Policy, NMVTIS Law Enforcement Guide, State DMV Participation Map, United States Department of Justice, Justice Information Sharing, and RISS Auto Theft Investigator Bulletin Board. Logos for NMVTIS, BJA, USA.gov, and RISS are also present.

NICB Agents A Force Multiplier in Fighting Fraud

NICB knows that relationships are key when investigating fraud and theft. For more than 100 years, they have planted deep roots with law enforcement organizations, public agencies and prosecutors who place unprecedented trust in their ability to detect, deter and stop insurance crimes. Their corporate headquarters are in Des Plaines, Ill., and they have field offices and investigators, known as Special Agents, in a number of locations.

The screenshot shows the NICB VINCheck website. At the top, there is a navigation bar with links for "About NICB", "Our Departments", "Theft and Fraud Awareness", "Training", and "Newsroom". Below the navigation bar is a search bar and a "Quick Links" section. The main content area is titled "VINCheckSM" and contains three steps: "Step 1: Enter VIN" with a text input field; "Step 2: Agree to the Terms and Conditions of Use" with a checkbox and text; and "Step 3: Enter Verification Code & search the NICB VINCheck database" with a text input field, a "Refresh Image" button, and a "Search" button. To the right of the steps is a section titled "About VINCheckSM" with an image of a person working on a car and text describing the service. At the top right of the page, there is a login section with "USER ID:" and "PASSWORD:" fields, a "Go" button, and a "remember me" checkbox. Below the login section are links for "How to become a members-only user" and "Forgot your ID or password?".

IBC | Insurance Bureau
of Canada

On average, a car is stolen every 7 minutes in Canada.

IBC/BAC Website: <http://www.ibc.ca/ns/auto/theft>

Why Auto Theft Is a Serious Threat

Every year, people are injured or die as a result of auto theft. When it's in the hands of a thief, a stolen car is like a loaded gun. Vehicle thieves have absolutely no regard for public safety and the rules of the road.

Auto theft is not a victimless crime or just a property crime. Auto theft costs all Canadians millions per year, if one considers health care, court, policing, legal and out-of-pocket costs such as deductibles. Each year, IBC publishes a list of the Top 10 Most Stolen Cars in Canada which can be viewed on their website.

Canadian Police Information Center

This tool can be used by anyone to run a VIN through CPIC to see if it is reported stolen in Canada. In the past non registered investigators had the ability to search by license plate. The current systems restrict searches to VIN based inquiries only.

<http://www.cpic-cipc.ca/index-eng.htm>

The screenshot shows the Canadian Police Information Centre (CPIC) website interface. At the top, there is a navigation bar with the Government of Canada logo and text in both English and French, along with links for Canada.ca, Services, Departments, and Français. The main header features the CPIC logo and a search bar. Below the header, there are four main menu categories: Search Vehicles and Property, Registered Users, More Information, and Solve & Prevent Crime. The current page is titled "Search Vehicles by VIN (Vehicle Identification Number)" and includes a brief description of the search capabilities, a VIN input field, and a section for Terms and Conditions of Use with an "I Agree" checkbox. A "Begin Search" button is located at the bottom of the form area. The footer contains links for Terms and conditions and Transparency, and a date modified: 2014-05-07.

Adviser

We provide advice, consultancy and training to insurance companies, local and federal authorities on identification, location, recovery and crime prevention about stolen vehicles.

Locate

We have specialized personnel throughout the Mexican Republic to expertly review the vehicles in fixed locations, different communication channels and in support of the operations carried out by federal, state and municipal authorities in charge of preventing and combating theft, through , of principles based on criminology.

Identify

We identify based on our OCRA Virtual system, and the corresponding of the federal authority, if there is a report of vehicle theft so that, through interpretation of the unique data contained in each vehicle, it is concluded if there is an alteration of the same, meaning with that the vehicle has been stolen.

Recover

We carry out the corresponding procedures, before the prosecutors involved and through the necessary documents, of the legitimate owner of the vehicle, so that the stolen car is made available to its owner.

National Highway Traffic Safety Administration

Recall information can be helpful in the course of vehicle fraud and theft investigations. Particularly with high end components such as airbags.

Website: www.safercar.gov

The screenshot shows the homepage of safercar.gov, powered by NHTSA. The navigation bar includes links for HOME, VEHICLE SHOPPERS, VEHICLE OWNERS, VEHICLE MANUFACTURERS, and PARENTS CENTRAL. A search bar is located in the top right corner. The main content area features a large banner for 'Heatstroke kills, and it can happen to anyone' with a video player. To the right, there is a section for 'TAKATA AIR BAG RECALLS' with a search button for VINs and a link to complete Takata recall coverage. Below the banner, there are several quick links: Crash ratings, Recalls & investigations, Complaints & defects, Car seats, Safety technologies, and Tire safety. A 'QUICK CLICKS' section provides shortcut search for a recall and child restraint recalls. The footer contains links to NHTSA.GOV, 911.GOV, DISTRACTION.GOV, TRAFFICSAFETYMARKETING.GOV, and EMS.GOV.

Vehicle Identification Number Search

Results show no open recalls based on VIN Inquiry.

Vehicle Identification Number (VIN)

Every vehicle has a unique VIN. Enter a VIN to learn if a specific vehicle needs to be repaired as part of a recall.

2T1BURHE2JC100836

17/17

Looking for more information on this vehicle?

NHTSA offers more safety information based on a vehicle's year, make and model. Check safety ratings, recommended technologies and other safety issues.

[Learn More →](#)

2018

TOYOTA Corolla

VIN: 2T1BURHE2JC100836

Recall data refreshed on Apr 17,2019

0 Recalls

associated with this VIN

What if my car isn't recalled now? Could it be recalled later?

Yes. Whether a manufacturer independently conducts a safety recall or NHTSA orders one, the manufacturer must file a public report describing the safety-related defect or noncompliance. Manufacturers are also required to notify owners by mail within 60 days of notifying NHTSA of a recall decision.

Look for this distinct label to distinguish critical safety recall information from other marketing material.

American Association of Motor Vehicle Administrators

Law Enforcement Standing Committee

The **Law Enforcement Standing Committee** inspires collaboration between Law Enforcement and Driver/Motor Vehicle Administrators to improve highway and public safety. With goals to increase law enforcement participation in AAMVA conferences, working groups, and other initiatives by providing and promoting uniformity and consistency through the development of standards, model programs and best practices. The Committee also promotes the exchange of challenges and successes in implementing technologies, sharing information, and with other contemporary law enforcement issues.

National Vehicle Service

Chairman Jim Spiller is a former Indiana State Police Officer and a retired National Insurance Crime Bureau (NICB) executive. He began his law enforcement career in 1975.

As Chairman of National Vehicle Service (NVS) it is with great personal pride to articulate that the mission of NVS “to be widely recognized as the world leader in providing unique vehicle theft, vehicle fraud and asset protection solutions to the law enforcement community, vehicle finance, insurance and rental car industries.”

NVS incorporated in the state of Illinois with the sole purpose of assisting law enforcement, vehicle finance, insurance and rental car companies and the public in protecting vehicle assets. NVS’s service assistance is in response to current volatile economic market conditions in the United States that breed an increase in vehicle theft, vehicle fraud and theft by deception.

Auto Data Direct is an Approved NMVTIS Consolidator and NMVTIS Title History Provider.

Auto Data Direct also provides access to State DMV records for DPPA qualified companies.

Auto Data Direct (ADD) is an approved NMVTIS Consolidator providing accounts to salvage entities to enable them to report their involvement with junk, salvage, or insurance vehicles into the NMVTIS system as required under NVMTIS regulations. ADD is an approved NMVTIS History Provider. ADD's title check reports provide information from a vehicle's current title, including the vehicle's brand history, title history, and any reported odometer readings. NMVTIS vehicle reports will also tell you if a vehicle has been reported as "salvage" or a total loss by an insurance company or a self-insuring organization, and lists reports from auto recyclers who may have handled the vehicle. DD also provides access to State DMV records for DPPA qualified companies that have a recognized need to verify ownership information on motor vehicles. For example, towing entities obtain a motor vehicle records in order to comply with their State's laws relating to sending lien notices to vehicle owners and lien holders. All vehicle records obtained through ADD have a bar code and verification code on the top right, which can be used to verify the legitimacy of the record by scanning the bar code or checking the verification code at verify.add123.com.

VEHICLE HISTORY REPORTS

Stolen Vehicle Assistance

A Theft Alarm Notification can inform you if your car alarm goes off. Once you report your stolen vehicle to OnStar, Advisors can utilize GPS technology to locate your vehicle, alert authorities and, in some cases, remotely slow down your vehicle so thieves won't get far. With Remote Ignition Block,™ OnStar can also remotely prevent a thief from restarting your vehicle. If your vehicle is stolen, Advisors work with local authorities so you won't be left alone.

First Responder OnStar Page:

<https://www.onstar.com/us/en/community/first-responders/>

Law Enforcement Working with LoJack

LoJack uses a proven and proprietary technology operating on a Radio Frequency allocated by the FCC for the recovery of stolen vehicles. When a vehicle equipped with a LoJack® system is stolen, the first step is to have the vehicle's owner alert local law enforcement. Once officers record the theft in the national stolen vehicle database, a silent signal is automatically sent that activates the LoJack® system's transceiver hidden in the stolen vehicle.

Bring LoJack to
Your Department

"We are proud to work with nearly 2,000 law enforcement agencies across the US, and we are committed to helping law enforcement reduce the impact of crime in the community."

PAT CLANCY Vice President of Law Enforcement, LoJack

Website LoJack Law Enforcement:

<https://www.lojack.com/for-law-enforcement/>

The National Equipment Register

OVERVIEW

Heavy equipment connects a wide web of industries. When it's stolen, these sectors share a common objective: to get it back. NER aids them in these efforts.

NER works to deter heavy equipment theft with three cutting-edge tools:

- IRONwatch is a no monthly fee GPS tracking system that can locate equipment in over 60 countries around the world.
- HELPtech is an ownership database used extensively by law enforcement to identify rightful owners and recover stolen equipment.
- IRONcheck provides a detailed history report that verifies your seller has provided accurate details and the equipment has not previously been stolen.

Each of our products is affordable and effective and has the potential to save you thousands in fines, fees, and stalled work costs. We partner with over 70 insurance agencies and companies that offer you incentives to invest in our services.

Whether you're buying, selling, or manufacturing heavy machinery, we provide the tools to help keep it safe.

The HELPtech logo consists of a dark blue shield-shaped icon containing a white fingerprint and a yellow checkmark. Below the icon, the text 'HELPtech' is displayed in a bold, sans-serif font, with 'HELP' in dark blue and 'tech' in yellow.

is our online equipment tracking database, used by federal, state, and local law enforcement officials around the country. Register your machinery to receive data-driven oversight, real time theft alerts, and an increased chance of recovery.

BERLA

Analysis of vehicle data will answer key questions for investigators and change the course of an investigation. Vehicle data can help determine;

WHAT HAPPENED

- Provide insight on the sequence of events that took place leading up to an incident
- Identify patterns of life and unusual events that happened around an incident
- Determine timelines of activity and establish a chain of significant events

WHERE IT OCCURED

- Provide historical data to show where a vehicle was at specific times
- Identify areas frequently visited, new locations traveled, and future plan
- Determine how long particular locations were visited

WHO WAS INVOLVED

- Provide unique identifiers that tie individuals to a specific vehicle
- Identify known associates and establish communication patterns between them
- Determine who may have been present or aware of key information during an incident

Law enforcement professionals can access CargoNet free of charge to:

- ▶ Upload cargo theft incidents individually or in batches by system-to-system feed or by email.
- ▶ Search the database for persons of interest, cargo, or vehicles.
- ▶ Analyze cargo theft trends.
- ▶ Carry out analysis to link common elements among multiple items, including people, incidents, events, or product serial numbers.
- ▶ Offer or participate in online or in-person investigative training.
- ▶ Receive theft alerts, bulletins, and news items.

Section III—Investigative Associations & Working Groups

IACP Vehicle Crimes Committee

The Vehicle Crimes Committee studies, considers, and determines the various methods and means by which vehicle crimes are committed, including the make and type of vehicles most commonly stolen; surveys, investigates, and evaluates the techniques and methods employed by the police and other agencies in solving and reducing the incidence of vehicle crimes cases; and reports to this Association for the dissemination to all interested agencies all pertinent information and recommendations that will reduce the incidence of this major crime. For the purpose of these objectives, the term “vehicle” shall include highway transport vehicles, off-highway recreational vehicles, boats, industrial and farm equipment, aircraft, and all other forms of transportation not included herein.

For additional information visit:

<https://www.theiacp.org/working-group/committee/vehicle-crimes-committee>

IACP VCC Members

Is a group of professionals of varied expertise in vehicle related crime committed to assisting law enforcement agencies across the world with awareness programs, strategies, resources and outreach to assist in combating vehicle crimes worldwide.

HELP US!

Preventing auto theft and other vehicle crimes can prevent major crime in your neighborhood. Take these steps:

VEHICLE CRIME IS HIGH IMPACT CRIME

VEHICLE CRIME

A vehicle crime is any crime involving the theft as a whole or parts, fraudulent sale, purchase, insurance or identification, or burglary of a car, truck, motorcycle, tractor trailer, ATV, heavy equipment, any other motorized vehicle, or its contents.

International Association of Auto Theft Investigators

To learn more about a Regional Chapter in your area Contact:

Executive Director,

John V. Abounader

IAATI Executive Offices

PO Box 223

Clinton, NY 13321-0223

Tel: 315-853-1913

Fax: 315-883-1310

IAATI currently comprises of six Branches covering - Europe, UK, Southern Africa, Asia, Latin America and Australasia - along with five North American Chapters covering both the USA and Canada. Our Executive Office is in New York.

THE IAATI

The International Association of Auto Theft Investigators (IAATI) was formed in 1952 in order to improve communication and coordination, among the growing family of professional auto theft investigators. It has become recognized as the peak industry body with members in over 71 countries. IAATI recognizes that our most effective weapon to combat the vehicle crimes is cooperation. IAATI has actively pursued this by providing its members with an array of experiences, training and resources in areas such as technical developments, trends, intelligence information and investigative assistance. Through IAATI we are able to pool our resources in order to achieve our common interests, and better serve our communities. IAATI is dedicated to developing and encouraging the highest professional standards of conduct among auto theft investigators, while providing an infrastructure for those dedicated individuals to broaden their knowledge and develop the crucial business networks with local and international colleagues.

THE NATIONAL ODOMETER AND TITLE FRAUD ENFORCEMENT ASSOCIATION

The purpose of NOTFEA is to deter odometer, rebuilt/salvage, and other title fraud through: Promoting and encouraging cooperation and fostering a working relationship among law enforcement and consumer protection agencies, licensing and motor vehicle departments, the automotive industry (including manufactures, dealers, leasing companies, and auctions), and individuals interested in deterring such fraud by developing a network of those persons and organizations; Training NOTFEA members and the public in the detection of altered and counterfeit titles; Developing and sharing investigative information and techniques, prosecutorial documents and techniques, and other educational materials among appropriate members; Monitoring legislation as well as industry and government policies that have an effect on such fraud; and Promoting public awareness of odometer and rebuilt/salvage fraud and its economic impact.

NOTFEA Board of Directors Web Page:

<https://www.notfea.org/board-of-directors/>

International Association of Financial Crimes Investigators

The IAFCI Mission

The association, a non-profit international organization, will provide services and an environment within which information about financial fraud, fraud investigation and fraud prevention methods can be collected, exchanged and taught for the common good of the financial payment industry and our global society.

Benefits of Membership

IAFCI gives our membership professionals the means to effectively communicate in a secure environment to promote the exchange of information in the never-ending effort to apprehend and prosecute financial crime law breakers.

OUR EVENTS

APRIL

16-17 | [2019 April NMVTIS Business Rules Working Group](#)
Santa Fe, NM

24 | [2019 April Industry Advisory Board Meeting](#)
Arlington, VA

Facial Recognition Working Group Meets in San Antonio
The leadership core group of the Facial Recognition (FR) Working Group met April 10-11 to edit the final draft of the FR Program Best Practices Guide, originally published in 2015. The final draft is now being reviewed by the full working group before being moved through the approval process. The 2019 version is expected to be published in August 2019.

Abandoned Vehicle Title Fraud Prevention: Survey Help Needed
Time is running out to assist the Abandoned Vehicle & Mechanic Lien Fraud Prevention Working Group in completing a member [survey](#). This survey will be a part of the working group's best practice document that will help jurisdictions in fraud prevention, detection, and deterrence related to abandoned and possessory lien vehicle title processes.

The survey can be found by clicking [this link](#). Please take a few minutes to provide your jurisdiction input before the **April 25, 2019** deadline. The working group is expected to publish this best practice in early 2020. Thanks for your assistance.

Third Party Agents Working Group Seeks Stakeholders
Industry representatives are invited to participate in AAMVA's Third Party Agents Working Group as Stakeholders. The Working Group is developing an interim guidance and a best practice document for administering and auditing third parties and vendors who process motor vehicle and driver license transactions on behalf of jurisdiction agencies. NOTE: Commercial driver license (CDL) transactions, including skills testing, performed by a third party agent is **NOT** included the Working Group's task.

Organizations that represent companies, providing third party services for motor vehicle agencies are invited to [submit an application](#) to participate as a stakeholder. Stakeholders may be asked to join conference calls and in-person meetings (at Stakeholder expense) with the Working Group. Space is limited and AAMVA will select qualified representatives from the applications received. Applications must be submitted no later than **May 3, 2019**. Send completed application to committees@aamva.org. Questions can be referred to [Casey Garber](#), (703) 328-0747.
